STROMBERG-CARLSON "MANHATTAN" TELEVISION RECEIVER

... with the spectacular
"OPERA GLASS" screen!

\$279⁵⁰

10% Down
Balance On Budget Terms

"OPERA GLASS" ... exclusive Stromberg-Carlson development featured in the "Manhattan" ... means BIG SET enjoyment at lowest cost. It's simple. Press-a-button, at will, and the picture's center of interest is blown up to the full 71-square-inch area of the circular picture tube.

And that's only one of the features that make the "Manhattan" such a tremendous value at only \$279.50. For example:—

- Circular screen ... 61-square-inch normal area ... 71-square-inch with "Opera Glass."
 - FM audio system with Stromberg-Carlson tone perfection.
 - Stromberg-Carlson video system, for clear, sharp, steady pictures.
 - All-channel reception.
 - Handsome mahogany table-top cabinet.
- Columbia unreservedly recommends the "Manhattan" because ... despite its low price ... it is still a Stromberg-Carlson and ... "there's nothing finer."
