

TOWARD INDUSTRIAL PEACE

Once Upon a Time There Was... By Richard M. McKeon, S. J.

Once upon a time in the great country of the United States there lived a group of wealthy men...

Government soothsayers used various formulas of alphabetical agencies to no permanent avail.

never satisfy the human soul. By no means are we including the wealthy. Let us be grateful to God that there are many honest men of wealth...

And it came to pass, as the original story goes, that the group of feudal lords of finance met together at a famous hotel on the gold coast of the Windy City.

THE PRESIDENT OF THE NEW York stock exchange, Richard Whitney, was requested by proper authority to do graduate work in the University of Kling King, Charles Schwab, the steel executive saw his fortune crumble and he also broke.

These men know today that the warning of the Divine Reckoning is as true as ever before. "What does it profit a man to gain the whole world and to suffer the loss of his soul?"

NOW TWENTY-FIVE years have passed. And during that time the United States in the world, overflowing with vast God-given natural resources, experienced a cruel thing called a depression which is less harsh to say than economic chaos.

AND SO the moral of our story is evident. Wealth alone will never satisfy the human soul. By no means are we including the wealthy. Let us be grateful to God that there are many honest men of wealth...

ONCE UPON A time this group of men, guided by Christian social principles, might have stabilized a nation's economy gained the grateful blessings of man and God.

THE TOP OF MY MIND

By Gretta Palmer

There is nothing like a treason trial to bring the newspaper reader smack up against the fact that this is a moral universe, and that he knows this in his heart.

QUESTIONS LIKE these have been coming thick and fast in other sections of the world during the past ten years. When an entire political party in France announces that it will fight on the side of the enemy in case of war with Russia...

Treason—A Moral Problem Of A Misdirected Love

mission as a highly moral one. Such men are not indifferent to "good" and "evil"; they are most passionate partisans of what they see as good.

AND SO IT is quite logical for men like John Gates to protest that they will not stoop to being stool pigeons.

THE MAN who serves a cause grudgingly, and with a divided heart, may imagine that he can keep it up forever. But he can't!

Practice Principle Of Equality Church's Influence Contrasted More Trained For Citizenship

By Mgr. William M. Hart

All Men Equal

Our Declaration of Independence sets forth as a self-evident truth that all men are equal. The whole American theory of government is based on this recognition of the equality of all before the law.

True Americans will not look to those whose whole philosophy of life is so foreign to that of the founding fathers. All men equal! Let us show that we believe in the principle, and that we practice it!

The Church In Action

What a sad old world this would be were it not for the work of the Church of Christ! Take away the teachings of Christ, take away the grace of Christ, and what would the world have left?

The spirit of Christ gives the world whatever stability it has. Enemies of God and of His Christ are also enemies of the Church.

More Graduations

Our colleges, secular and religious, have sent forth their young armies of future leaders, with final messages for their guidance in life.

More graduates! More and better ones! To this end Bishop and priests and Sisters, pupils and parents, labor in and for our schools.

This Man Welcomes Sinners

Christ came to welcome sinners. He saw in them the material for future saints. He had no joy in leaving them to their unfortunate sinful practices.

Theory vs. Practice

Catcutta, India—While the fight for the theory of complete religious freedom has been won in India, the fight to put it into practice still lies ahead.

WHAT'S RIGHT WITH THE WORLD?

That's the important thing—fron the inside. Only yesterday I heard a man say, "I don't like the looks of that church. Neither did I, because the architecture on the outside was of a kind I don't fancy."

THAT COULD be a parable. Those writers who attack our religion confine themselves to a view of the Church from the outside.
