Home Owner Says Tax Bill is Real Bargain Under Republican Management

Rochester is a widely-heralded "City of Homes" and is justly proud of the Republican government that has kept the city's real estate tax at the same level for ten successive years.

Services during this time were expanded to a marked degree, and NOT CURTAILED, while prices were going up and revenue remained the same.

The total of taxes on a \$5,000-assessed home, which buys ALL of these services, is less than three weeks average take-home pay of an industrial worker.

One of these average taxpayers lives at 472 Post Avenue, a well-kept and attractive residence housing a happy family of mother, father and five-and-a-half-year-old daughter. It is a typical Rochester family, knowing and appreciating the many advantages of living in the Flower City.

Like many others, Kodak Park worker Ernest J. Anderson will complain about taxes, and who doesn't?

But, he'll tell you this:

"I haven't got any kick coming on my LOCAL tax bill.

"For the past ten years, the tax on my home at 472 Post Avenue has been the same, except for trifling variations because of snow removal and street cleaning costs. In 1939 my bill was \$160.88. This year I paid \$164.86.

"I figure that costs me \$3.17 a week. It's mighty little for what I get.

"The best fire and police protection is always at hand for my family, my car and my property, a big factor in the insurance premiums I must pay.

"Street and traffic lights are important in safe driving and protect my family. The street and sidewalk in front of my home are kept clean of snow in winter and I drive to work over streets that are kept free of ice.

"The food we eat at home, the restaurants we visit occasionally and our milk and water have the protection of the finest health department in the country. It guards us and our daughter every day in a score of ways. At school Nancy has periodic health examinations and every necessary immunization against disease, a program that has kept Rochester free of epidemics for more than thirty years.

"School taxes take \$52.90 of the money I pay for my real estate tax. That's a little more than \$1 a week. Nancy started her second year in school this fall. In addition to one of the finest and soundest educational systems in the country she gets fine physical training, swimming, sports, recreation and extra-curricular activities of many kinds.

"The best private school couldn't do much more and I know I couldn't afford it.

"We need and use often the assistance of many city departments. The finest beaches and swimming pools are easily available and our parks are the best in the country. We use them constantly and our band concerts, playground, library and museum abound in all sorts of cultural and recreational programs.

"Rochester doesn't have any juvenile gangs or organized viciousness. We don't think about it and just take the activity of our Police Youth Bureau and the Police Athletic League for granted.

"We don't worry about children going to and from school. School safety officers of the Police Bureau have won top national recognition every year for that sort of service.

"The food we buy, the gasoline and fuel for automobile and home heating are always fair weight and measure.

"There's a fine public market, thriving port and a public service bureau that takes our complaints courteously and remedies them on the spot.

"These services for me, and my neighbors, make Rochester a good home city. We like it here and are glad to be part of a good community.

"Health, safety, education, recreation and many other lesser services are mighty important.

"A tax bill of \$164.86 that buys me all this is a mighty good bargain for me."
