**PARKING FOR 200 CARS**

Hundreds of craftsmen spent many long hours in the construction of this-Rochester's newest, most modern shopping center. No effort was spared in constructing a building that the merchant would be proud of for years to come and that the customer would enjoy shopping in . . . Every detail, no matter how small, was planned thoroughly with the finest materials money could buy. We think you'll agree that we have a right to be proud of the new Mt. Hope Shopping Center.
