PHILIP GENDREAU

it's a Man's Job

if you have..

GOOD HEALTH If you're a normal boy not over delicate or sickly, fond of fun, a good sport, willing to take as well as give . . . you have the first essential for a future missionary.

GOOD MARKS Perhaps you don't lead the class, but you are not the class dunce either. You do your homework, and you are willing to study hard because a missionary must know plenty.

GOOD WILL You love God. You are willing to ask him for what you need. You pray to His Mother often. You want to be a priest and will try your very best. (The rest will be up to God.)
