Here's the story in a nutshell: One of Jamestown's finest old manufacturers needed warehouse space—and was willing to sacrifice these quality bedrooms to get it—and Graves was Johnny-on-the-spot! Graves has been buying quality furniture from this manufacturer since they both opened their doors 64 years ago—and THIS IS QUALITY FURNITURE, through and through! Almost as beautifully finished inside as it is out—and ruggedly constructed for decades of service! The fine woods have been hand-polished and hand-rubbed to a glowing patina! Drawers are dovetailed and dust-proofed, have dividers and center guides. The thoroughbred work of conscientious craftsmen is evident in each piece at first glance. It is Graves' honest conviction that suites of such impeccable quality cannot be duplicated in this area at this low price!
