

**Museum Diorama Shows Many Warbler Species**  
A newly opened diorama in the Hall of Natural History on the first floor of the Rochester Museum of Arts and Sciences, at East Avenue and Goodman Street, shows many species of wood warblers. The warblers fill the trees of one of their favorite sites—Tufa Glen—which is on the east side of Irondequoit Bay. The little birds match their natural environment, blending with the leaves and trees.
