Read! Think! Vote!

After deep, serious study and examination into the conduct of Rochester's affairs for the past sixteen years under the Republican Regime, we have come to the definite conclusion that IT IS TIME FOR A CHANGE IN ROCHESTER'S CITY ADMINISTRATION.

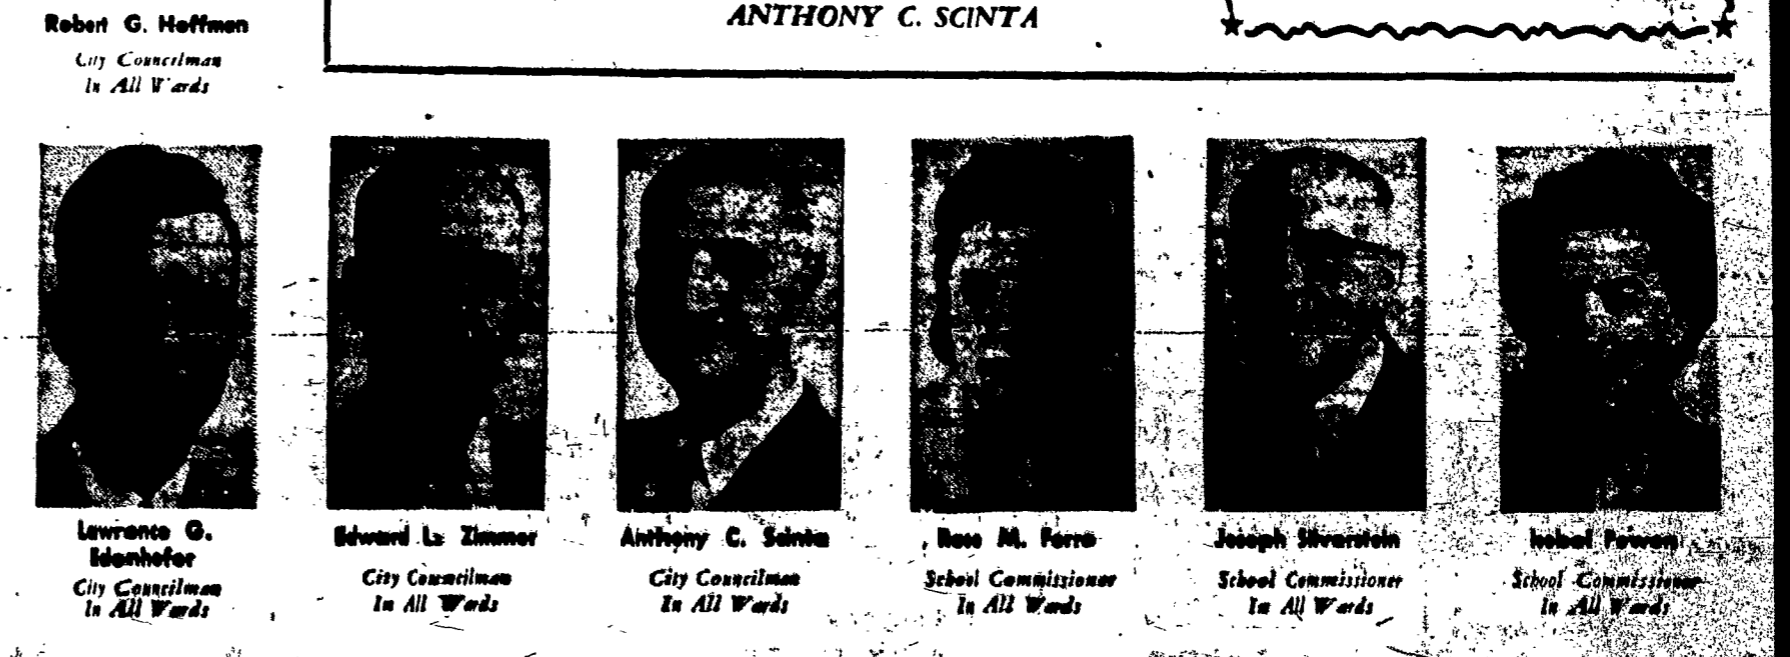

The Democratic Candidates for the City Council have attempted to present the many issues in this campaign in a fair manner to the People of Rochester in this election, and have asked the Gannett Press, the only direct means of reaching the voters, for help first in repeating the Read, Think and Vote Campaign sufficiently in advance of election in order to get the greatest number of voters to register in this vitally important local election. The answer to this request was a very definite NO.

We have tried to present to the People of Rochester, through our candidates, the issues as we have seen them through the news medium in Rochester, the Gannett Press, by delivery each day of a copy of each speech to the respective Gannett Press Papers. Most of these speeches they have seen fit to emaculate, distort and bury in such spots of the newspapers where they are of little value to the news readers, for the articles either could not be found, or if found were so distorted as to kill the effect of the important issues.

We believe that this action was intentional on the part of the Gannett Press through conspiracy with the Republican Machine of Rochester, to keep the Rochesterians in ignorance of the Democratic issues as to what is wrong with Rochester under Republican Rule.

As part proof, is the sudden appearance in the Gannett Press approximately three weeks before election on the front page nevertheless of beautiful sketches and drawings of prospective buildings recommended by various planning commissions, boards and civic groups as a smoke screen of Republican Failures and Lack of Accomplishments in the past sixteen years.
