

Catholic Schools In 3 Counties To Join In Polio Vaccine Field Trial

Catholic Schools of Rochester and Monroe, Cayuga and Tompkins Counties will participate in the Polio Vaccine Field Trial in cooperation with the National Foundation for Infantile Paralysis and the State, County and City health authorities.

Meetings of the elementary school principals were held Monday and Tuesday evenings at Sacred Heart Academy, Rochester, at which the Catholic school principals were briefed on the entire program.

Vaccination tests are confined to the children of the 1st, 2nd and 3rd grades and only by the request of the parents. Parents in Rochester and Monroe County will sign voluntary request forms this week asking that their child participate in the vaccination trials.

THESE FORMS were given to the children of these grades in Rochester and Monroe County during this week. The Rt. Rev. Msgr. Charles J. Mahoney, Superintendent of Catholic schools, said parents who wish their child to participate should make certain that their request forms have been returned to the schools immediately. Possible subjects to receive the vaccine in Catholic schools of Monroe County are 10,139 children in grades one, two and three, in Cayuga County are 1,072 and in Tompkins 308 children.

MONSIGNOR MAHONEY is encouraging participation of the Catholic schools in the prevention of the dread disease cited the statement of Dr. Herman E. Hilleboe, Commissioner of the New York State Department of Health, who said that the National Foundation for Infantile Paralysis has done everything possible to assure the safety of the vaccine.

The Division of Laboratories and Research of the State Health Department has approved the method of production; three independent scientific laboratories will give safety tests to each batch of vaccine as it is produced. The safety tests will be performed by Dr. Jonas Salk, Research Professor Bacteriology at the University of Pittsburgh; the developer of the vaccine, the commercial manufacturers and the Biological Standards Division of the United States Public Health Service's National Institutes of Health.

Doctor Salk has already given the vaccine to several thousand children and adults in the Pittsburgh area, including his own wife and children.

THE VACCINE should not be confused with the gamma globulin which was widely used last summer. Doctor Hilleboe emphasized. Gamma globulin is one of the derivatives of human blood from persons who have had poliomyelitis and have built up some immunity to the disease. At best it could provide only temporary immunity for the period of a few weeks that the gamma globulin remains in the body of person injected. This is called passive immunity.

Monsignor Mahoney said participation will be completely voluntary and only those children whose parents specifically request that they take part will receive the injection. Injections will be given by local practicing physicians on a voluntary basis.

IN THE COUNTIES of Cayuga, School, St. Francis of Assisi and Tompkins, Catholic Schools, School, St. Hyacinth School, St. Mary School and St. Peter and Paul School, in Tompkins County schools are all in Auburn, Holy Family School, St. Ignace School, St. Alphonsus School, Oswego.

AT LOURDES HNS BREAKFAST

PRINCIPAL ROLES at the 13th annual Communion Breakfast of Our Lady of Lourdes, Holy Name Society, Elmira, were taken by above, Sunday, April 11. Rev. Leo G. Schwab, pastor; Very Rev. Francis L. Meade, C.M., speaker; standing, W. Russell Bosley and John D. Frawley, co-chairmen.

Church Survives Trials, Fr. Meade Tells HN Men

Speaking on "Your Church," the very Rev. Francis L. Meade, C.M., president of Niagara University, addressed 135 members of Our Lady of Lourdes Church, Holy Name Society in Elmira, Sunday, at the 13th annual Communion Breakfast.

Father Meade who said Christ preached the most wonderful doctrine ever known spoke in the Mark Twain Hotel.

The most dramatic incident in the life of Christ was shortly before His Ascension into Heaven when He sent His apostles out into the world to give mankind a new doctrine and philosophy of life, Father Meade said.

This new philosophy of that time was a "doctrine based on respect for the individual and love for your brother," the speaker said.

Christ cured the sick, fed the hungry and raised the dead to show He was the Son of God, the speaker said. He established a church, which although made up of human beings, was divine in its origin and He promised all ways to be with it.
