**HOME OF SACRED HEART SCHOOL TEACHERS**

NEW CONVENT of Sacred Heart Cathedral Parish located on Flower City Park, opposite the Cathedral to be opened for public inspection on Sunday, Sept. 26 and Sunday, Oct. 3. Home of the Sisters of St. Joseph who teach in Sacred Heart School, this imposing structure was designed to meet the needs of the 23 Sisters now housed there.

**Inspection Of New Cathedral Convent Slated For Public, Next Two Sundays**

The new Cathedral Convent will be open for public inspection Sunday, September 26 and Sunday, October 3 from 2:00 to 6:00 p.m. The convent was recently completed for the Sisters of St. Joseph who teach at Sacred Heart School.

The new structure located at 287 Flower City Park across from the Cathedral replaces the old convent at 1361 Lake Avenue which served the Sisters for over 25 years. It was blessed by His Excellency Auxiliary Bishop Casey assisted by the Rev. Francis J. Taylor, Rev. Edward J. McAniff and the Rev. Michael C. Hogan on Tuesday, July 6.

**THE PEOPLE** of Sacred Heart Cathedral through a special campaign conducted in October 1953 generously pledged a total of \$399,389 to pay for the cost of the convent and the parish's assessment of \$68,740 for the Bishop's High School Jubilee Fund. The new convent cost \$330,646. This amount includes furnishings.

The exterior design has been carried out in a modified Georgian style with materials blending with the other buildings in the parish group.

The convent chapel provides for thirty-six persons and is located in the front one-story section. The windows and chapel furnishings and other convent equipment are largely memorial gifts donated through the generosity of Sacred Heart parishioners.

The front one-story section also contains, in addition to the chapel and sacristy, an entrance and lobby, three reception rooms, and a music instruction room for private tutoring.

**THE COMMUNITY ROOM**, located next to the chapel, is the heart of religious community life, and contains the long study tables traditionally used by the nuns together with the usual accessory bookcases.

The side entrance, facing the school and parking area, provides convenient access to the locker and community rooms as the Sisters come in from school. The large day-lighted locker room contains individual lockers for each Sister's school books and outdoor garments. The work room, refectory and kitchen have been integrated into the floor plan to provide the "step-saving" features demanded in homes today. Ample closets and storage rooms throughout the house assure the nuns of a "place for everything."

The lay-cook's suite is also located on the first floor.

**THE KITCHEN** is fully equipped with modern built-in cabinets, stainless steel work tables and sinks, and the cooking, refrigeration and storage facilities necessary for such a large household.

**INDIVIDUAL BEDROOMS**, located on the second and third floors, can accommodate a maximum of thirty Sisters. Each room is equipped with a bed, desk, chair, an easy chair, a built-in chifferobe designed especially for nuns, and a lavatory.

A central sewing room is located on the second floor with ample linen and blanket storage cabinets adjacent; also cedar closets for the storage of woollens. The infirmary suite has its own facilities including a nurse's cabinet. The sun porches at the southwest corner of each floor are built with enclosures for all-season use.

The laundry installation in the basement contains the modern professional types of washing, drying, and ironing equipment. The trunk room is spacious enough to provide one-tier access to all trunks. The basement also
