### Towels and T-Shirts

... proved to Dad the new electric clothes dryer is the best thing happening in Mamma's laundry since the automatic washer. The towels always feel just like new, soft and fluffy. And so do his T-shirts.

Mamma knew from the first load the electric clothes dryer was for her. She could tell the clothes dried better than ever before. Sheets came out almost unwrinkled, without stiff wrinkles dried into the corner.

The thing she likes best about the new electric clothes dryer is the way it cuts washday work down to just a few minutes. All she has to do is load the washer, and when the washing cycle is complete, tumble the wet clothes into the dryer. Set a dial, and washday is done. Those tangled, wet clothes come from the electric dryer smooth, sweet and untangled.

See your electric appliance dealer and learn why so many women are falling in love with the convenience of an electric clothes dryer. Your dealer can make it easy for you to own yours before the snow starts to fly. See him now.
