DO-IT-YOURSELF SINK

AMERICAN KITCHEN'S newest sink is designed for easy home installation. The sink can be assembled by one man in ten minutes and using only a screwdriver and a pair of pliers. The knock-down assembly is packed in two cartons with complete assembly instructions. The sink measures 42 inches wide with either left or right-hand drainboard. Faucet, strainer and hardware kit are included.

PENNANT'S new, upholstered folding chair keynotes real lounge comfort, beauty and the convenience of easy storage. Upholstered in vinyl plastic.

COLLECTOR'S KITCHENS
If you are one of the many millions who collect things, try to work your collection as part of the kitchen.

From copper molds, to trivets, spoons, antique glassware and candy jars—these can be incorporated into your kitchen decor.

OVER REFRIGERATOR
Don't let the space over your refrigerator go to waste. It's the perfect spot to park those rarely-used utensils.

A GUIDE TO CATHOLIC HOME BUYERS

Modern Kitchen Floor Plans Open Up New Space for Work-Saving Appliances
Kitchen Remodeling Can Be Accomplished By Home-Owner As 'Package' Project or By Step-By-Step Installations

As in our pioneer days, living today revolves around the kitchen which has become so much a part of everyday existence. Open plan, pass-through, see-through kitchens are more practical, homier more pleasant to work in and help the homemaker keep a watchful eye on pranksome youngsters and to visit with guests as she prepares meals.

If your kitchen is out-of-date and needs redoing, broaden its everyday use to include laundry appliances. Washer, dryer, and ironer are counter top height and can double as work surface in smaller kitchen areas. If you're lucky enough to have a back porch or pantry, laundry equipment can be placed there, opening up through to the kitchen area with an island work surface.

You may remodel in one thorough overhauling or piece by piece. But by whichever method you achieve a more efficient kitchen-laundry, a little background knowledge of basic work patterns will result in a more easy-to-work-in, livable and happy area of your home.

Remodeling should actually start with the floor. The patterns and versatility of the new linoleums, rubber, vinyl or asphalt tiles can surely set the mood for your new kitchen's decor... and save you waxing and cleaning time.

The three main food preparation centers of any kitchen are the sink, the refrigerator and the range. Each unit requires work surface on either or both sides to eliminate steps and lifting effort.

Assorted containers make economical and attractive accessories for the modern kitchen.

Ideally, you should have a double sink. It doesn't take up much more space than a single one and is useful for small hand laundry jobs. Placing it under a window gives you a more lively view while working. Storage cabinets at the sink area should be large enough for family-sized pots to save precious preparation time.

Let your personal cooking habits and family's food preference guide you in the choice of a gas or electric range. Gas and electric refrigerators come in all sizes. Here again, the size of your family and weekly shopping habits govern how big a refrigerator you should have.

For the laundry area, keep in mind that there are five steps in doing laundry—sorting, washing, drying, ironing, storing. A fully equipped home laundry includes an automatic washer, a gas or electric dryer, an ironer and, if there's room—a double sink or tub.

Equipment should be placed so that home laundering can be done with minimum effort. The dryer should be next to the washer so that clothes can be transferred directly from washer to dryer. Kitchen cabinets are so

New Surface Cover is Ideal Material for "Do-It-Yourself" Decorating and Fix-Up Jobs

A modern surface for a hundred and one uses, is St. Regis Panelite. Available in a new 1/10" thickness for economy in installation, it offers the handyman a serviceable covering, easy-to-work-with surface covering material.

Panelite is a high-pressure, laminated thermosetting plastic. It will not stain from acids, boiling water and shoe polishes; nor will it mar from burns, or swell. It also resists chipping and cracking.

For handy shelving, table surfaces, stair risers, headboards, many other uses, Panelite offers service and beauty.

If you have an old, unsightly metal shower stall, dress it up, covering flush doors and many with Panelite!

Unique built-in tension curve makes possible the installation of 1/10" ST. REGIS PANELITE over any reasonably sound surface without using any type of instant bonding cement.

varied in size today that they fit into any type of remodelled area. Base-cabinet units, utility cabinets, necessary units for around island areas and wall cabinets come in all widths, all types of shelf arrangements. There are even base and wall cabinet "filler" units as small as an inch wide to fill in odd-sized open areas.

Whatever you choose—complete kitchen with separate laundry equipment, or combination kitchen-laundry, pre-plan carefully and ask your appliance dealer for charts of work areas, for complete sizes of all appliances and cabinets. He'll be happy to advise you. Then when the job is done, you'll have a happy easy-to-work-in kitchen that will be so attractive, it may well become the primary living area of your home.

Novel Chair
