Why A Social Security Card?

Why a social security card? It is just a little card with a blue border, a social security account number and a name. When a claim is filed for social security benefits, the social security account number card is important. It pays to keep it where it can be found. The social security number is the number of the individual's social security account—the insurance account to which the employer, employee and the self-employed make regular contributions. These contributions pay for old-age and survivors insurance. Don't lose that card! If lost, apply for a duplicate at any social security office. In Rochester the Social Security office is located in room 424 Burke Building, 5 St. Paul Street.
