16 Diocesan Priests In Armed Forces

This month the U. S. Army Chaplains Corps marks its 18th anniversary. Founded in 1877 it is actually older than our nation itself. It is dedicated to the service of the armed forces.

Since the Corps was organized in 1877, it has had a long and distinguished history. It has served in every branch of the armed forces.

What is not so generally known is the fact that the Corps is currently on active duty as chaplains in the armed services.

Five are Army chaplains, eight are in the Navy, and three are Air Force chaplains.

Chaplains in the past were often loaded with distracting duties. During the Mexican War they were called on to do a wide variety of jobs.

During World War II, as throughout the Korean campaign, chaplains received publicity as they ministered to the needs of the troops.

During these days of peace, chaplains are again being called on to do a wide variety of jobs. They are now being called on to do a wide variety of jobs.

AMERICAN PRIESTS are now literally all over the world where ever U. S. forces are stationed.

Rochester diocesan priests are serving in England, Germany, Guam, Alaska, as well as in many other parts of the world.

During World War II, as throughout the Korean campaign, chaplains received publicity as they ministered to the needs of the troops.

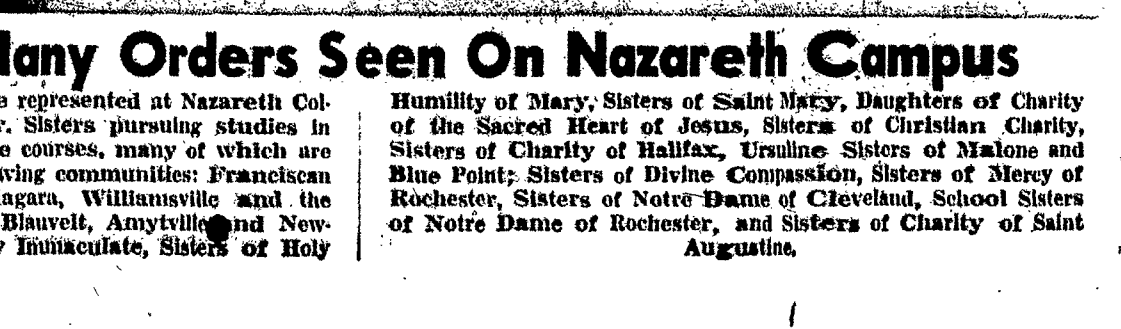

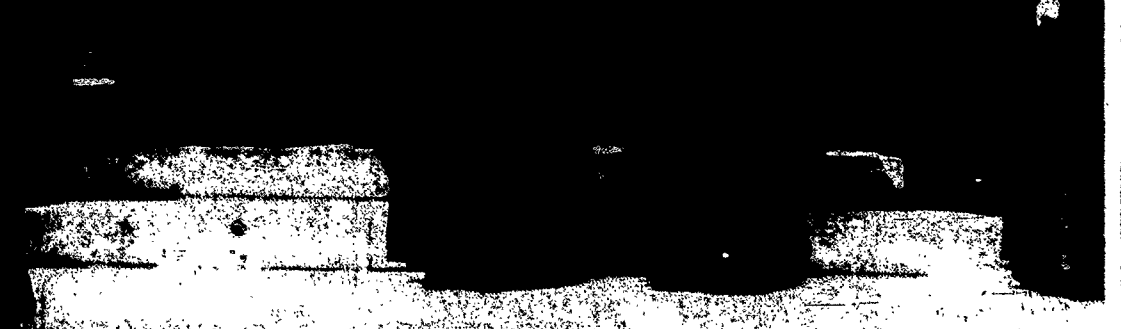

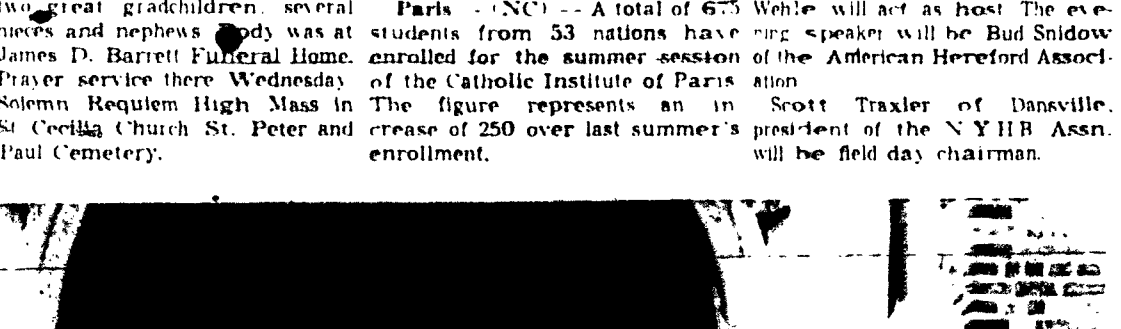

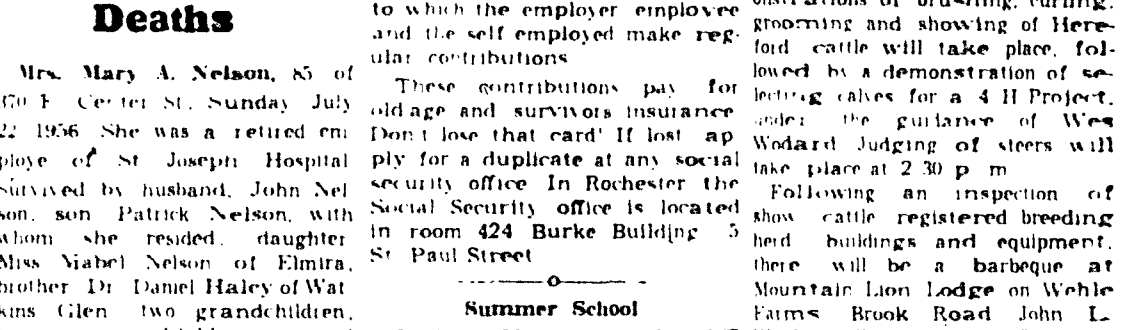

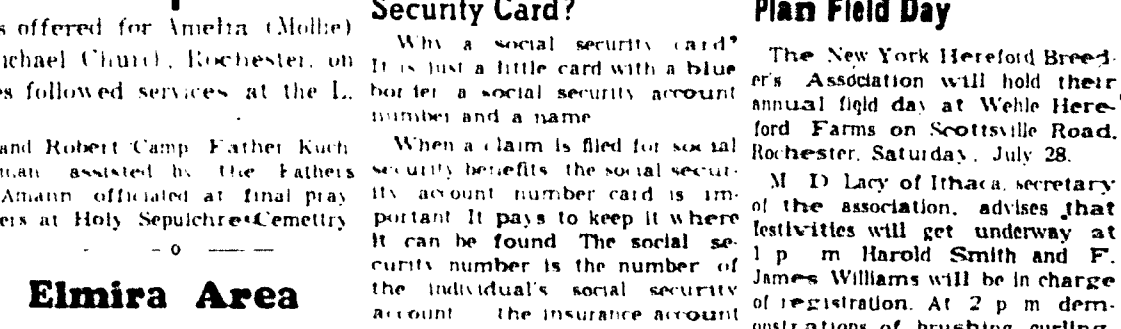

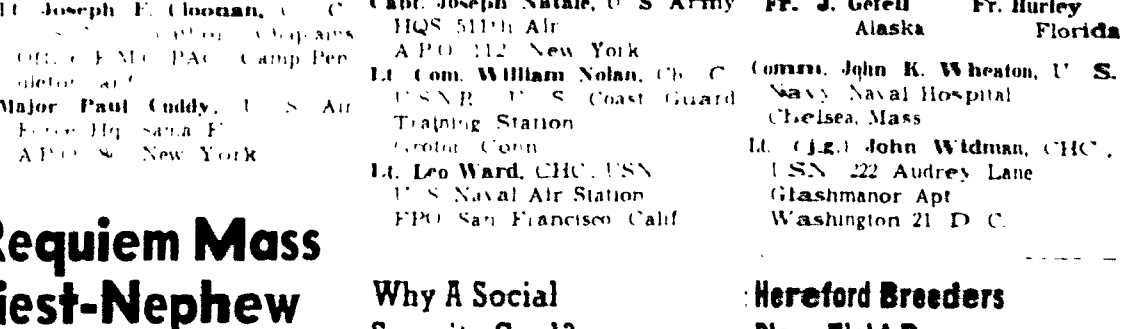

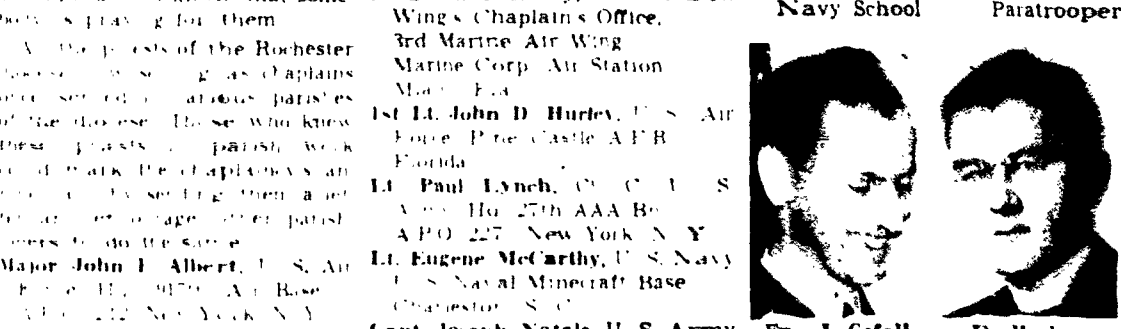

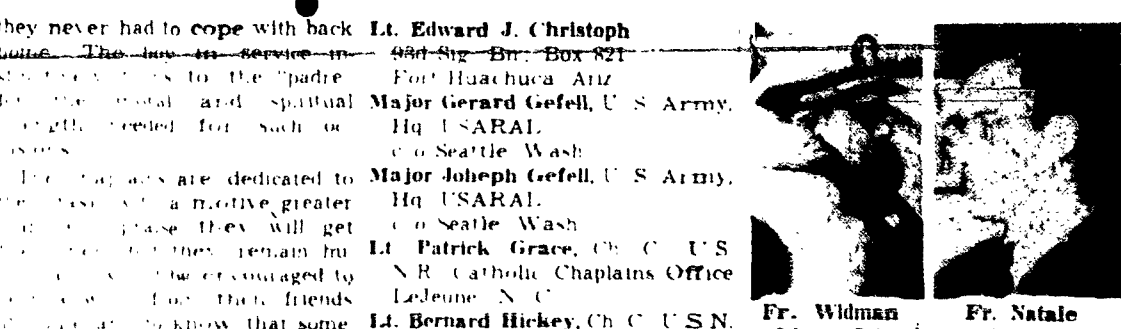

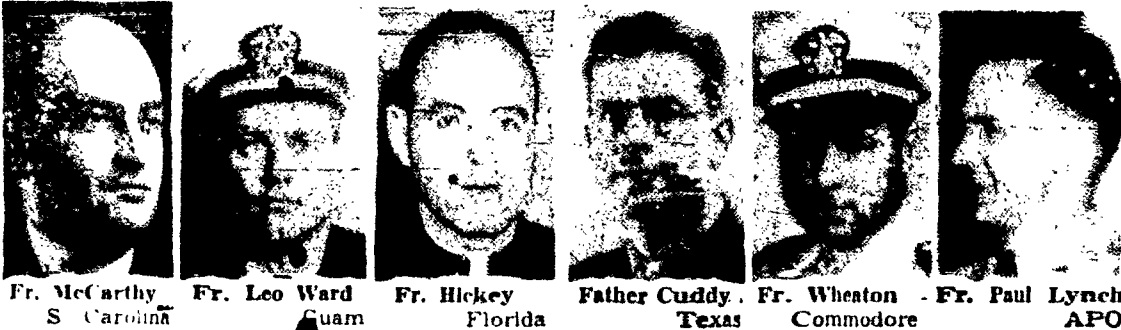

During these days of peace, chaplains are again being called on to do a wide variety of jobs. They are now being called on to do a wide variety of jobs.

RECRUITS to the Corps are drawn from all parts of the country. They are drawn from all parts of the country.

These days are busy days for them. They are busy with their work and their families.

They are busy with their work and their families. They are busy with their work and their families.

They are busy with their work and their families. They are busy with their work and their families.

Why A Social Security Card?

It is just a little card with a blue border for a social security account number and a name.

When a claim is filed for social security benefits the social security account number card is important. It pays to keep it where it can be found. The social security number is the number of the individual's social security account.

The insurance account to which the employer, employee and the self employed make regular contributions.

These contributions pay for old age and survivors insurance. Don't lose that card! If lost apply for a duplicate at any social security office. In Rochester the Social Security office is located in room 424 Burke Building, 5 St. Paul Street.
