

Well-baby Clinic, St. Mary's Hospital, Rochester

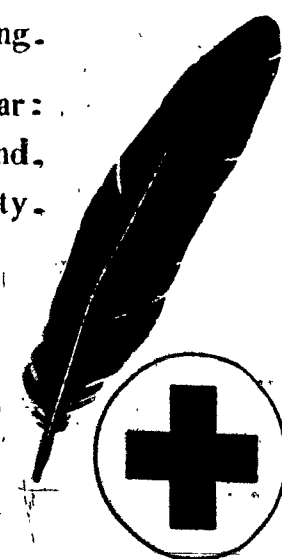

“Open wide, Doc!”

This little fellow is just one of thousands who receive skilled medical attention every week, at the well-baby clinics in each of Rochester's six hospitals. This service, one of dozens supported by your Community Chest, could well be responsible some day for the health and well being of your own child. The Red Feather dollars which maintain these critically needed programs are the full measure of your generosity! The need this year... for your gift... has never been greater. It can mean so much to so many. So open your heart... give more, give now! It's a wonderful feeling.

These are some of the agencies which are supported by your generosity each year:
Visiting Nurse Service, Health Association, Association for the Blind,
United Cerebral Palsy Association and the Multiple Sclerosis Society.

give...TILL YOU FEEL GOOD
YOUR HELP MAKES ALL THE DIFFERENCE

Community Chest-Red Cross Campaign of Rochester and Monroe County, May 2 to 13, 1957
