**How to Judge a Nursing Home**

- How does the neighborhood look? Is there a place to sit outdoors?
- Is the home covered by Hospital Trained Staff around the clock?
- How many men and women are on the staff? What training have they had? Is there one employee for every five patients?
- Does each bedroom contain a bedside table, lamp, easy chair, drawer space, closet, buzzer beside the bed? Are residents permitted personal possessions?
- Are the bath facilities adequate? Are there non-slip materials on bathroom floors and stairways, handrails beside tubs and showers?
- Is there an automatic fire alarm, extinguishers?
- Are patients neatly dressed? What kind of expression do you see on their faces? Do they participate in any activities? How do they spend an average day? Are the ambulatory patients separated from the bed-ridden?
- How do the menus compare with what your parent has been eating? What's the kitchen like? Is tray service available for bed patients?
- Can patients have personal physicians?
- What are the rules of admission, visiting, delivery and dispatch of mail? What is the basic cost?
