ROCHESTER INDUSTRY SALUTES

Bishop Kearney

*

Rochester is a proud city proud of its Churches, its schools, its civic institutions but mostly proud of the men who lead them. For twenty years we have enjoyed the experience of the association of Bishop James E. Kearney in his capacity as leader of the Catholic Diocese of Rochester. We realize that our community is ever the richer because of his dynamic leadership, his affable personality and his great spiritual strength.

And so on this triple occasion in his priestly life, we take pride in saluting him on this rare three-fold celebration—fifty years of service in the Sacred Priesthood, twenty-five years as a Bishop and twenty years as Bishop of the Rochester Diocese. It is our hope that he will continue for many more years to minister in our midst and to continue to provide that kind of gently yet forceful leadership which has won him our respect and affection.
