Society Women Hear Speaker

By ANGELINE TORCHIA

Ithaca — The Ithaca Rosary and Aitar Society met in parish hall Monday evening following reception of the Rosary and Benediction of the Blessed Sacrament in church. Mrs. Charlotte DeWitt, president, conducted the business meeting. Plans were formulated for a bake sale in April after Lent.

REV. OTTO J. VOLT, moderator, welcomed the members and gave a resume of activities for the rest of the year. In April a formal meeting will not be held because of Forty Hour Devotions. Reception of new members is slated for May as a panel discussion by converts. In June, Robert Rios of Guatemala, a Cornell student, will show slides of his trip around the world.

Father Volt also introduced the speaker, Frank Kuffack, probation officer for Ithaca and Tompkins County. Kuffack told of the work of the Probation Department whose main job is the supervision of probationers. Probationers are individuals who have committed a first offense and sometimes a second one but have not been sentenced to prison. They have specific conditions and rules to follow and obey, and a schedule of periods for reporting to the Probation Department in person.

Kuffack also said that a probation officer's primary duty is to society and his welfare, and rehabilitation of the individual is secondary. A question period followed the talk during which an insight was given to local problems and the rehabilitation of teenage boys and girls.

Student Opinion

'Slump Moderate' Club Says

The present downturn in business activity will be a moderate one, according to the student members of the economics club of St. John Fisher College.

This conclusion was made at a seminar meeting held March 7 at the school, according to Robert L. Burks, president of the club.

Eugene Calaan, a senior and club member, said that undue emphasis is being placed on the recession since it falls in an election year.

THE AMERICAN economy is continually going through alternating phases of prosperity, recession, depression and revival, according to Robert P. Cargoe, but the general public usually misinterprets these terms, he said.

This is just the end of the third business cycle that this country has gone through since the end of World War 2, John Wallace said. The current recession is similar to the ones we had in 1949 and 1954, the ends of the first two cycles.

Senior Paul B. Schmidt emphasized that the business cycle is an inherent part of our dynamic, capitalistic economy which progresses in an uneven fashion, swinging from a period of expansion into a period of contraction.

A RECESSION in cycle terminology means a decline from the highpoint reached in the previous phase of prosperity, Pierre C. Landry said.

Larry J. Boudens, a Fisher senior, concluded that a depression, contrary to popular opinion, does not mean widespread unemployment with breadlines and a rising number of bankruptcies and bank failures, but the lowest level reached in the cycle before the upturn or revival phase takes over.

members, according to Dr. Edward F. Stauber, assistant professor of economics and the club's moderator, was that the present recession will soon come to an end and that the depression phase will be neither severe nor prolonged.

HE'S ALWAYS THERE

Whenever you walk into the Church to pray No matter what month or what time of day He's always there ready to listen to you And there isn't anything He can't do.

There's no secretary to say He's busy right then Or, "He can't see you now but He'll call when He can" He's never in conference or out to lunch until one He's always right there so glad that you've come.

You'd think He'd be busy with the heads of states Presidents, kings, princes, and other "greats," With problems so weighty and of worldwide concern That He wouldn't have time to give you a turn.

But He listens to your problems and solves them too For He always knows what is best for you And He's one "VERY IMPORTANT PERSON" you'll never hear say:

"Sorry... I'm busy... can't see you today."
