ANY AMERICANS have not stopped to realize What a "Soviet America" would mean. The communists, however, have no doubts. Their blueprints are already made. So, let us look at their dream and see what it would mean to you and me.

Party boss, was interviewed before a nation-wide American television audience. With calm assurance he stated:

"I can prophesy that your grand children in America will live under socialism. And please do not be afraid of that. Your grandchildren will ... not understand how their grandparents did not understand the progressive nature of a socialist society."

William Z. Foster, long-time National Chairman of the Communist Party of the United States, also reflected the hope that this nation will one day become communist when he stated in 1949, in dedicating his book, "The Twilight of World Capitalism":

State Aid Plans Should Include All Pupils-NCEA

By JOHN J. DALY, JR. (N.C.W.C. News Service)

Philadelphia - Catholic school teachers and administrators urged here that proposed governmental scholarships and other educational aids be made available to students of all schools.

Delegates to the National Catholic Educational Association convention adopted a resolution which noted that both Federal and various state authorities are considering educational aids to strengthen the national welfare.

The NCEA resolution maintained that these aids would be directed foward the national welfare, which is concerned with all students, rather than directly toward the benefit of schools, and therefore should be available to all students.

This is the third time recently that a Catholic educational group has taken a stand that students in non-public schools should not be overlooked when, in the interest of the

national welfare, governmental aid is given to education.

Nazareth Academy Convent, Chapel Construction Slated

Buffalo, N. Y. - (RNS) -State aid for churches was defended here by a Harvard Law School professor who contended that the U.S. should "retreat somewhat" from its firm stand against public assistance to religious bodies.

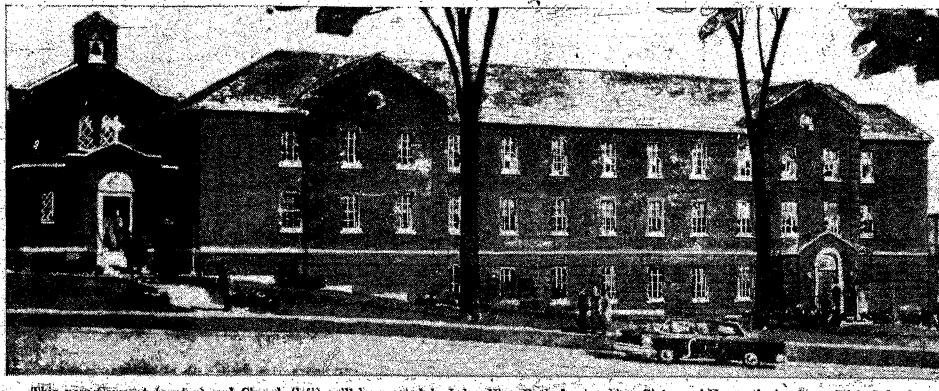

Prof. Mark DeWolfe Howe declared: "History does not justify the present assertion that churches may not, on a non-discriminatory basis, receive aid from the state." Religious groups "would not

abuse their liberty" if the Supreme Court gave them concessions, he told a joint meeting of the University of Bulfalo and Bulfalo State Teachers College chapters of the American Association of University Professors. He said a "retreat" by the

court would "discourage" the immoderates" and eliminate "exaggerated demands" by church todies and "exagger-ated fears" by opponents of state aid to religious groups.

"I find it hard to think that . to put a creche on public property infringes anybody's liberty," he asserted.
