**Mr. Pepsi says**  
Spring is the time to be optimistic. News services in Washington are featuring the bright side of the nation's economic news these days. The Prophets of Doom are being exposed as windbags!  
A "Buy Now" campaign sweeping the country reached Rochester this week. It makes good sense. You'll never find a better time than now to buy the things you family needs. "Buy Now" means a boost for the economy. The buyer gets a good break because prices are real attractive, and everyone benefits.  
As the President said, there's nothing wrong that a little optimism won't cure.
