Each day the delegates will go through the procedure of creating a new make-believe state. The girls are required to participate in various public debates, outdoor games, music, and varied entertainment have been planned for their enjoyment.

### St. John Fisher College Receives Science Grant

The department of biology has been notified by the National Science Foundation that St. John Fisher College is the recipient of a two year grant for the support of research studies in Mexico.

Dr. H. H. Arnett Jr. will be the principal investigator. Thomas S. Johnston of Yale University will aid Dr. Arnett. These studies are a continuation of the work initiated by Dr. Arnett last year under the support of the American Philosophical Society. The results of these observations will be incorporated in a scientific monograph on the subject being prepared by Dr. Arnett.

### Penn Yan Mothers To Honor Graduates

The Mothers Club, Sunday morning June 22. The breakfast will be for 1958 graduates of St. Michael's School and also the boys and girls of St. Michael's who are members of the Penn Yan Academy 1958 graduating class.

The Mothers Club will also sponsor a graduation party at Mary Lou Restaurant, W. Lake Rd., Thursday June 19 for St. Michael's graduating class. Party will follow graduation exercises in church at 7 p.m.

Although no practical application of the results of the studies being made at St. John Fisher College is anticipated, it is presumed that such studies are a prelude to practical and final development.

The 13,000 mile St. John Fisher College Sonoran Desert Expedition during the Summer of 1957 yielded nearly 20,000 insect specimens which are now being studied by specialists throughout the United States and abroad as well as at St. John Fisher College.

The specimens will eventually be deposited in the collection at St. John Fisher College and in other major collections including those of the United States National Museum in Washington. The 1958 party is to leave for Alamos, Sonora about July 1st in a specially equipped Volkswagen. The bus will contain laboratory and living quarters for the two investigators. This year most of the collecting will be done in Mexico.

Mr. Pepsi says  
Summer vacation today is a far cry from yesterday.  
Grandfather took a train or buggy to a nice resort. Then he'd stay put for the whole time!  
Today we jump into the car and seek adventure wherever it may be. That's modern living.  
Another nice thing about vacations, whether you take it in the back yard or on the road, you can always enjoy Pepsi Cola.  
How's your supply right now? Do you have enough on hand for summer fun?
