Dr. Abraham Lande

*Practice at Saint Joseph's, a rewarding experience...*

*... in Faith . . . .*

The Greatest General Practitioner the world has ever known was Our Lord Jesus Christ in His earthly ministry. Equally the world's greatest Specialist on the ills of mankind, this divine Physician suffered agony and death to save the soul and one day to restore to life the bodies of His people.

During the observance of the 50th year of St. Joseph's Hospital, we, the members of the Medical Staff and the Dental Staff, acknowledge with gratitude our debt to the Master for His guidance in our efforts . . . and to the good and gracious Sisters of Saint Joseph for their skilled and inspirational assistance. It is a rewarding experience in Faith, Courage and Devotion.
