DISHED!

Have you ever said you had a million dishes to wash. You were probably closer to the truth than you thought. Somebody has figured out that American women wash 5,692,500,000 dishes every day.

Probably he didn't count every dish, but it seems to have been what is known as an educated guess. That guess was based on a study made in Ohio. A test group of homemakers found they washed an average of 126 dishes a day.

It took each woman an average of 73 minutes to do the job. THAT'S MORE THAN EIGHT AND ONE-HALF HOURS A WEEK.

There isn't another single household chore that takes more time or is more tiring than standing over a kitchen sink twenty-one times a week to wash and dry dishes.

You can own a Mobile Maid Automatic Dishwasher for only $199.95.
