## A MESSAGE OF IMPORTANCE TO ALL!

### CAN TRAGIC FIRE LIKE THE RECENT CHICAGO SCHOOL FIRE BE PREVENTED?

First, Let Us Say That NOTHING Actually is FIRE PROOF. Even Steel Will Melt if Exposed to Extreme Heat . . . But We, of R. C. Shaheen Paint Co., Believe There is a Solution to the FAST SPREAD and Disastrous Results of Fires Like These.

Fyr-Kote paint will not support flame . . . it gives time to get out of a burning building. It prevents the spread of flame . . . into a raging inferno . . . why shouldn't every school, hospital and public building have Fyr-Kote on the walls and ceilings of every exit and hall? It would at least make them usable during a period of escape.

The Paint They Said Couldn't Be Made . . . but is now available to schools, industries, public assembly halls and private homes through Morris Paint Laboratories. A fire retardant paint that should be used wherever there is a possibility of the loss of life, valuable equipment or property.

Tested by Underwriters Laboratories and many state and federal agencies, Fyr-Kote retards flames in approximately 30 to 50 seconds! See this convincing report and demonstrations that prove beyond doubt that Fyr-Kote actually prevents flames from spreading! Tested and listed by Underwriters Laboratories since 1933.

WHAT IS FYR-KOTE? Fyr-Kote is a Ready-to-Use High Grade, Long Lasting Oil Base Paint Manufactured by an Exclusive Process. It Positively Will Give Fire-Retardant Protection Against Fire and Heat for All Surfaces.

HOW DOES IT WORK? The Moment Flames Touch a Surface Finished with Fyr-Kote, a Chemical Reaction Takes Place . . . Millions of Tiny "Bubble Fire Extinguishers" Which Act to Smother the Flame. Surfaces Coated with Fyr-Kote Will Not Support Flame.

HOW IS IT APPLIED? Just Like Any Quality Paint. It Can Be Brushed or Rolled on Any Surface. Liberal Application is Necessary. "Fyr-Kote" Are Recommended.

WILL FYR-KOTE PREVENT FIRE? No. Fyr-Kote Will Prevent Fire from Spreading, Prevents Little Fires from Becoming Big Fires, Gives Firemen Precious Time to Do Their Work and Gives Time to Escape from Burning Buildings.

WHY SHOULD YOU USE FYR-KOTE? Count the Lives, Money, and Human Life If You Should Have a Fire. Fyr-Kote, by Retarding the Spread of Flame, May Make the Difference Between Negligible Loss and Complete Loss. And If One Life is Saved, Fyr-Kote Will Have Done an Incalculable Service!

"UNDERWRITERS LABORATORY SEAL" "COMPLIES WITH MRL" "APPROVED BY CITY OF ROCHESTER UNDER RULE 41"

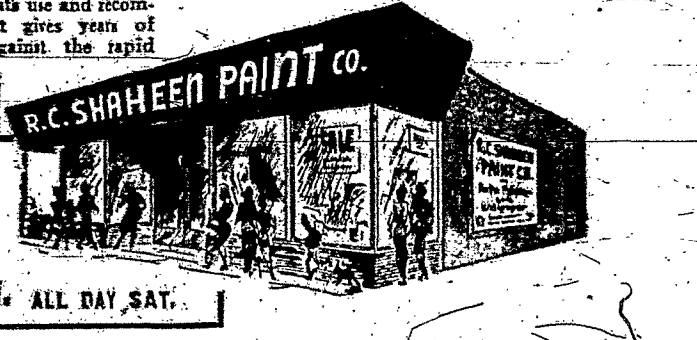

Available in WHITE and COLORS

### COSTS ONLY PENNIES MORE THAN ORDINARY PAINT

A revolutionary new interior wall paint that actually stops fire from spreading and at the same time gives lovely new beauty to your walls. Saves life and property. Homes, schools, hospitals, hotels, industrial plants use and recommend Fyr-Kote because it gives years of beauty and protection against the rapid spread of fire. Proof-tested by laboratories (U.L.) government agencies, states of New York and California, British Government and industrial users.
