St. Cecilia Youngsters Cop National Honor

Members of St. Cecilia's Youngsters Club of St. Cecilia's School, Rochester, won national honors this week when the Commission on American Citizenship of The Catholic University of America rated their achievements of the current school year deserving of a Letter of Recognition.

The St. Cecilia's Civic Club was one of 32 clubs so honored in this category.

The Commission on American Citizenship, sponsoring agency, confers these awards annually in recognition of the achievements of outstanding groups among the more than 3,700 Catholic Civic Clubs in parochial schools throughout the country.

THE CIVICS CLUB program aims to promote greater understanding and appreciation of the principles of Christian citizenship among the boys and girls of the upper elementary and high-school grades.

A particularly practical and important subject of how to choose a suitable career was developed around the theme - "Serve God and Neighbor Best, Find the Career Just Right for You."

The "Young Catholic Messenger," national current affairs weekly, presented articles every month suggesting club activities. An introductory article discussed the idea of a career from a Christian viewpoint and was followed by features on industry, teaching, trade, science, medicine, services, government, and farming.

What is happening to your tax dollars?

When you look into it, you find that a big part of your taxes is spent needlessly for federal "public power."

The pressure groups for government electricity are busy right now, trying to get \$10,000,000,000 in tax money for federal "public power" projects in certain areas of the country - unnecessarily - because independent electric companies like yours are able and ready to provide all the electricity the nation needs.

More than \$5,600,000,000 has already been spent on these costly "public power" projects. Does it make any sense to spend still more?
