MAKE YOUR HOME HAPPIER WITH GAS HEAT!

There's nothing, in the way of improving your home, that adds more comfort and saves more work than converting your furnace to modern, automatic Gas Heat. No one can dispute the fact that Gas is the cleanest popular fuel for heating. Gas is also the most completely automatic fuel. You never have to worry about fuel delivery no matter what the weather is! Gas is piped underground to your basement. This also means that you have more usable space because no bins or tanks are required for fuel storage.

Best of all, Gas costs less to install and less to maintain than other fuels. When all things are considered, Gas is your best heating buy! Most folks know this because the swing is overwhelmingly in favor of gas heat. Today, nearly 70,000 homes in Monroe County are enjoying the happy benefits of modern Gas Heat. Why don't you join them now? It takes only a few hours and costs as little as \$1.70 a week on convenient budget terms.

Your heating contractor or your RG&E Heating Department will be happy to give you all the facts for your home. Why don't you call us soon?
