If you can read numbers, you can play any kind of music from classical to jazz-tonight, in your own home. You simply match the numbers in the Song Books with the numbered keys

of the Magnus Electric Chord Organ keyboard. You needn't know one note from another, though they're there for those who do. You play full, resonant chord accompaniment, too.

You, yes you press a key-and out comes MUSIC! Real music, full timbered, rich, mellow, and wide of range ... vibrant with the authentic "breathing" of organ tones and overtones, because Magnus uses the same principle of passing air over reeds as you find in the mightiest church organs. Truly, Magnus is unmatched at its price for workmanship, cabinetry, and
