Latin America Blocks Reds

Washington — (RNS) — The Sen. Mike Mansfield (D-Mont.) and which see in them the proper example of independence and mutual responsibility.

They heard Bishop Hannan give thanks for the fact that the Latin American nations, with few exceptions, have shown at the United Nations an unyielding and resolute resistance of Red tyranny.

"Without any pre-arranged concurrence and without the contrivance of a strategy, they have rallied to the cause of Western Civilization," declared Bishop Hannan. "They have been the inspiration of the new world."

Archbishop Egidio Vagnoni, apostolic delegate to the United States, presided at the Mass which was celebrated by Archbishop Patrick A. O'Boyle of Washington.

AMBASSADORS and diplomats from the Latin American nations joined high-ranking American officials at the traditional Thanksgiving Day service. The Organization of American States was represented by its top officials. Among American leaders present were Chief Justice Earl Warren, Secretary of Labor James P. Mitchell, and Valeri in a ceremony here.

Christmas Programs Disrupt 'Peace on Earth'

Milwaukee — (RNS) — Directors of the suburban Fox Point-Bayside schools rejected a recommendation from the school superintendent that Christmas be deemphasized in 1960 because of differences of religious opinion among parents.

Donald P. Hoffmann, a school board member, said Jewish parents had complained that there was too much identification with religion in the school's Christmas activities.

A PUBLIC hearing on the dispute drew an attendance of 33 persons, most of whom spoke in favor of retaining the traditional carols and other activities.

The recommendation that Christmas be deemphasized was made in a statement which was mimeographed and distributed to teachers by the school superintendent, Peter Stormonth.

"This has been a thorn in our flesh for a number of years," Mr. Stormonth said. "We've been badgered on both sides for years."

The board voted to set up a special committee to study the questions. Its recommendations, if any, will go into effect in the 1961 Christmas season.
