

Knights Hear Atomic Expert

Showing of a motion picture depicting the underwater circling of the globe by the submarine Triton and a commentary by William Herman, director of advertising and public relations of Stromberg Carlson Co. featured the meeting of Rochester Fourth Degree Assembly, Knights of Columbus, Thursday of last week at Columbus Civic Center.

HERRMAN SPOKE of the operations of various Stromberg-Carlson plants in different parts of the county and explained the relationship of SC and General Dynamics Corporation. He mentioned the wide variety of products now being made and told of those in prospect.

The Triton, he said, is 325 feet long and carries a crew of approximately 160 men. It is handled, he said, with an airplane type of control wheel and demonstrated surprising maneuverability. After the film showing which Herman said was its first showing locally, he conducted a question and answer period.
