**30-Inch, Gold Star Gas Range**

With this new Roper Automatic, Gold Star Gas Range you can get perfect cooking results every time. You'll never have to worry about burned or overcooked food. The "Burner With A Brain" makes an automatic utensil out of every pot and pan you own. Jet set the burner at the temperature required and this exact temperature is maintained—automatically. You get "Smokeless Broiling" because the gas flame consumes all the smoke and grease . . . you broil with the door closed! The gas flame sears and seals-in the natural meat flavor. Now you can get accurate oven control down to 140° with the new low temperature control. You can cook meals in advance and keep them hot without a hint of the "steam table flavor." Foods can be kept warm without overcooking . . . roasts won't be ruined . . . won't dry out or shrink. Also featured on this new Roper are three circle-simmer top burners, each with four pre-set heat speeds; broiling, frying, simmering and keep warm.
