

**Trappists' Life Extolled**

Rome — (NC) — Pope John XXIII has urged the Trappists to preserve their order's two great principles — prayer and penance — and to continue their ancient love for Our Lady.

Pope John spoke (Sept. 1) at the monastery of the Order of Cistercians of the Strict Observance here where the Trappists are holding a general chapter. He stopped off at the monastery on his way back to the Vatican from his summer residence at Castelgandolfo.

The Pope noted the flourishing condition of the Trappist order and pointed out that today it has more than 4,000 monks living in more than 20 monasteries throughout the world.

**Ark Remnant**

**Under Study**

London — (NC) — Several pieces of wood, which might have been part of Noah's ark, have been found 14,000 feet up on Mt. Ararat.

A team of American archeologists looking for the remains of Noah's ark reported that the wood, apparently from a huge boat, was found on Mt. Ararat in eastern Turkey by Turkish Maj. Sahap Atalay.

The wood is now in San Francisco, where it is hoped that its age will be established within three months.

Vandeman said the wood, which seemed to be from a boat about 700 feet long, fitted in remarkably with research through the years. He said a seven-foot piece of wood, estimated to date from about 2,500 B.C., was found in the same area in 1955.
