## Christmas Highlights IN THE PARISHES

### Nazareth Nun Featured In Jo Berg Lectures

An assistant professor of philosophy at Nazareth College is participating in a lecture series designed to encourage science study among high school students. Talented students from five Catholic high schools are attending the Jo Berg lectures at Mercy High School.

### Blinker Tells Stand, Kneel

Albany—(RNS)—Two New York inventors have devised a silent signal system that directs a church congregation when to sit, stand or kneel during services. They think it will help fill the pews up front. "People sit or stand in the back of the church because they're not sure when to sit, stand or kneel during services when they're up front," according to Frank O. Perrault of Troy and his partner, Anthony J. Parisi of Cohoes, an inventor. "Some don't want to be way up front making mistakes, being the ones who decide when to sit, stand or kneel." The device they have invented is a panel on which the words "stand," "sit" or "kneel" light up at the appropriate times during church services. The directions can be tripped by remote control or by hand switches.

lation to space science, emphasizing problems in connection with the nature of space and divine creation of the world of space.

On Sunday, Dec. 18, Sister Jane will discuss problem areas of philosophy in relation to the life science with emphasis on problems of biological determinism arising in genetics.

The lectures are designed to point out to student that there are areas of apparent conflict between philosophy and physics; science, but that there is no ultimate conflict between the two fields.

Sister Jane is a graduate of Nazareth College. She received an M.A. in Philosophy from the University of Notre Dame and a Ph.D. from St. Louis University.
