New Quick Tanning discovery by COPPERTONE®
Tans you in 3 to 5 Hours Without the Sun, ...or With it!
Q.T.* gives you a DOUBLE TAN!
INDOORS, tan you straight. Apply Q.T. before you go to bed, following directions. Wake up with a stunning tan!
OUTDOORS, deepen your tan. Apply Q.T. next day in the sun. Watch your tan become much deeper, richer.
Now, practically everybody can tanned and vital-looking with a Q.T. Double Tan! Q.T. is the new way to tan, developed by Coppertone for people who find it hard to tan -or want to tan more quickly!
Q.T. tans parts of your body the sun can't reach... for the best all over tan you ever had!
Best Sunburn Protection, too! Indoors, Q.T. tans the outer layer of your skin by a wholly new scientific principle.
Outdoors, Q.T. lets the sun tan your inner skin layers, while its sunscreen agents help prevent sunburn!
Q.T. contains no dyes or artificial coloring matter to streak or discolor your skin. It's safe for every normal skin type. And its emollient and skin conditioner soften and benefit your skin.
Forget about Stockings! You save money when you "tan-proof" your legs with Q.T. tan legs become smooth, glamorous-looking...
Surprised about a FULL WEEK'S Sustaining? A prominent skin specialist found overnight use of Q.T. gave a deeper tan than a full hour's exposure to sunlight every day for nearly a week! Subjects used popular suntan lotion or cream (or other makers) on one side of back -kept other side covered for 6 days, then applied Q.T. to untanned side. And Q.T.'s tan outscored the 6-day suntan.
In health and safety. Every day Q.T. never makes Q.T. tans!
