## GOD LOVE YOU!

By MOST REV. FULTON J. SHEEN

Rome - The other raight, and we dired with shourt eighteen bishops from behind the Iron Courtain, we taked teven of them who were near us at table to add up the number of wears they had spent in prison and in concentration camps because of their Faith. The total was twenty-six years! We then told them that they were "dry martyrs," explaining that a "wet martyr" was one who shed blood for his like the while a dry martyr was one wito died a thousand times through surfering. They answered:
"We are all potential wet marks." adding that they mad either just gotten out of, prison or were getting ready to be sent back.

We then told them that Christ has various kinds of presence in the world: one is in the Chutch, another is in The Eucharist, another in the poor Cleon Bloy, umable to receive Communion one day, asked that a poor person be Brought into his sick room— and the etiter presence of Christ is in the suffering of IEEs hisheaps, priests and people with are "witnessing to Christ" by their lives. Millions and smillions of our faithful Catholizes live it a state preparatory for martyrdom. Youths in min countwits think not so much of living but of dying for the Faith.

Won't you identify you'rel ver with these holy men and women by little acts of self-deniand, so that you may at least have pitz-pricks to set alongside their scars? One of the great advantages of fasting is that by doings without something you want, you become one with those who are in need. St., Paul says that If one member suffers, for example the hand, the whole body suffers with it. So it is in the Chaurch; the poor and the suffering are part of our body. If you denied yourself just one cigaret a day, you could send the Holy Father, through his Society for the Propagation of the Faath, showut \$6 \$ year, or \$5.73 more than the average per capita contribution of United States Catholics to the Vicar of Christ for the Maissions and missionaries of the world.
