it leaves you breathless!

Smirnoff—filtered through a "mountain" of charcoal
What makes Smirnoff so crystal clear, uniquely smooth, so remarkably free of taste or odor? Every drop is filtered through 7 tons of activated charcoal. That's why it's drier in a Martini, smoother on the rocks, blends so perfectly in a Screwdriver or a Bloody Mary. In fact, Smirnoff mixes with anything that pours. And it leaves you breathless.
