**SWITCH FROM THIS**  
  
**TO THIS...**  
with a low cost compact **GAS FURNACE**

Think of all the extra living space you can add to your home when you replace your old-fashioned furnace with a compact new Gas Unit. You can use that extra room for family fun or simply brighten up your basement and make it a cleaner, more pleasant area for your laundry or workshop.

The nicest part about switching to Gas Heat is that it costs less than any other type of heating to install; less to use and less to maintain. Those are some of the reasons why 3,000 area home owners have been switching to modern Gas Heat each year.

Now is a good time to modernize your heating system, too. Do it now and you'll be ready for the first chilly day in the fall.
