Let's get together this year

in the profitable
saving atmosphere of Columbia Banking

Let's face it, Columbia Banking can do a lot for you in 1965, in savings profits alone. But how can we show you the year that's going to be if you keep saving at a checkbook bank. (It costs you money.) Columbia pays 4 1/4% compounded quarterly on insured savings and your money is always available.

Now about 1965: we are installing the latest IBM electronic computer called 1401 "On-line." When we go "On-line" to accommodate you better, Columbia will be one of the first saving associations in the United States to effect the change to 100% electronics.

It's the kind of progress you would expect of Columbia. We didn't say that, we're quoting the competition.
