HOW TO LIVE WITH HEADNOISES!

Now, for the first time, learn the facts about one of the major causes of hearing distress.

Until today little has been told about this irritating—symptom that annoys millions.

New booklet explains "Tinnitus" or Head Noises, how it interferes with hearing and understanding—how if anything can be done to relieve the hissing—ringing—roaring—popping—cricket sounds that you hear. Is it an indication of approaching deafness? Will it become worse? Will a hearing aid help? Is it nature's warning sign? Can anything control or cure it?

Don't put the Chartreuse too close to the milk

(someone might pour it on the cornflakes!)

But then why not? Chilled Chartreuse goes with lots of things... grapefruit, ice cream, desserts... and, naturally, on the rocks or as a highball. The main point is: chill Chartreuse before you serve it. For that's the new way to add finesse to Chartreuse's 350-year-old flavor. A most venerable and versatile liqueur. For an ideal booklet on drinking and cooking with Chartreuse, write Schieffelin & Co., 30 Cooper Sq., New York, N.Y., Department R.
