Miss Eysaman Heads Therapy At St. Mary's

Miss Annette Eysaman, R.P.T., started Monday, April 26 as head of St. Mary's new Physical Therapy Department, Sister Winifred, hospital administrator announced.

Miss Eysaman is a native of Little Falls, N.Y., and leaves her position as supervisory physical therapist at Little Falls Hospital to join the staff at St. Mary's.

Miss Eysaman formerly worked in Rochester for the Visiting Nurse Service and prior to that at the Genesee Hospital and the Monroe County Public Health Department.

At present this new addition to the services at St. Mary's is still being made ready. Most of the equipment is installed on the first floor of the hospital's new Medical Service Wing. While workmen finish with their installations, Miss Eysaman will work at organizing and planning the framework of departmental operation.

The finishing touches will probably be completed sometime in May. Meanwhile, Miss Eysaman will be setting up administrative controls, developing methods to coordinate the patient's visits to the department and looking to add qualified auxiliary help to her department.

Miss Eysaman holds a New York State Physiotherapy license and is a member of the American Physical Therapy Association. She studied at the Bouve, Boston School of Physical Education and Physical Therapy and earned her BS degree from Tufts University, Boston, Massachusetts.

GOD LOVE YOU

Most Reverend
Fulton J. Sheen

A sister who personally handles 50 patients a day in an African dispensary told me this story of one family. "Little Christine, who is four years old, weighs only 15 and a half pounds. Her mother died in misery in the bush country, after having been poisoned by witchcraft. Eugene, a skeleton of two and a half weighs 13 pounds and looks like a little old man. His skin is much too large for him. It hangs in folds, begging to be filled. His father, who was a sorcerer, died of old age despite having invoked the curse of the gods on his family. Edmund six—his stomach and feet swollen, his hair uncurled, his skin taut and without pigment. If he shows his tongue, it is surprisingly white. This child suffers from the last stage of kwashiorkor, caused by a low protein diet. He is dying of starvation despite the fact that he consumes an enormous bowl of soup every day. This is the story of only one family but so many visit the hospital that if you come during the night shift, you will find as many people on the floors as in the beds. It is moving to see the pagans of yesterday begin the great voyage to eternity in such peace. Our problem is that of the growing Church, seeking to guide all men to her heart, in order to share with them the benefits of Redemption."

The dispensary in which this missionary works is a room 13 feet by 13 feet. Here from 50 to 150 patients a day are treated. In three months of begging, sister has been able to raise only \$2,500 of the \$25,000 necessary for a new dispensary. Her need is only one of thousands that pour into the Propagation offices daily. Yet the per capita expenditure last year in the United States for tobacco and alcohol was \$138 per man, woman and child! Catholics did their share to pile up this amount which is more than what two-thirds of the world earns. Take ten minutes! Think about this! And send your coin-contributions to the one mission society that aids all. GOD LOVE YOU!

GOD LOVE YOU to D.M. for \$2 "I am 14 years old and am sending you this sacrifice because your cause is better than mine." . . . to Mrs. B for \$15 "Here is a small thank you to God for 15 happy, healthy children."

NEW BABY COMES HOME

THE HOLY FATHER'S MISSION AID TO THE ORIENTAL CHURCH

Imagine, if you can, bringing your new-born grandson, daughter or nephew home to the comfortless world of a refugee mother in the Holy Land. Probably your well-cared-for, small one sleeps safe and warm in a basket lovingly prepared by you just for him. But huddled under rocky ledges in the Near East are mothers whose babies must lie in crude cradles fashioned from cardboard boxes or on a heap of old clothes, and even the hard ground. These are the babies of the Palestine refugees, homeless since political conflicts tossed them like leaves in a storm into the refugee camps of the Holy Land. This mother has no doctor to call, when her infant comes down with any one of the vast number of diseases so prevalent among these unfortunates. She can only turn to a clinic such as that at Zarka, a city 25 miles from the capital of Jordan, where a doctor makes but two visits a month. The rest of the time the clinic is attended by two nurse's aides. Her child must have powdered milk to replace the traditional "formula" of rice water, the frequent cause of bone malformation and decalcification. Your help is asked to give these infants the basic means for survival. \$90 will equip a child welfare clinic such as the one at Zarka. In order to give the care which is needed and to consolidate the work of these clinics, a doctor should attend weekly. \$600 will meet the doctor's fees for 52 weekly visits. \$25 will provide a bicycle for a visiting nurse. \$20 soap and talc for the clinic. \$10 powdered milk for a year for one baby. \$2 a baby blanket.

GOLDEN MOMENTS . . . are few and far between in the life of a refugee child. Leftovers are his daily lot. Even his clothes have belonged first to someone else. . . . So FIRST COMMUNION DAY is rightly a GOLDEN MOMENT for these little ones. No department store displays for them, its beautiful white dresses and veils, but we can send one FIRST COMMUNION outfit for every \$10 you give us. . . . As you seal the envelope, just imagine the eyes of the child who receives your gift!

LET THE HOLY FATHER DECIDE? That's what you do when you send us a gift for the missions "no strings attached." The Holy Father uses it where it's needed most, in one of our 18 mission countries.

This sixth grader mows lawns to feed babies in Hong Kong

He is one of the 4,500,000 children twelve years old and younger who belong to The Holy Childhood Association. Part of the money he earns is contributed to the work of the Association . . . the caring for destitute children in mission lands.

This association was founded over 100 years ago so that children could help children . . . thousands of needy children in every corner of the mission world. The members pray every day for the success of Christian Missionaries throughout the world. They pay dues of a penny a month, and they contribute extra nickels and dimes that they could have spent on themselves. Their money goes for the clothing, food, housing, and Christian education of mission children. When a member's or group's contributions reach \$5.00, they become the spiritual godparents of a mission child. Last year, Holy Childhood Association members here in America spiritually adopted 222,660 children overseas.

May, the Month of Mary, has been selected by The Holy Childhood Association as the time for extra prayer and sacrifice for the adoption of homeless children. We're sure that Mary, the Blessed Mother of all men, is especially pleased by this work.

Why are we telling you about The Holy Childhood members? Without thought you would be proud of them.
