Married Couples' Retreat Scheduled at Notre Dame

Father Richard Moran, C.S.S.R., the Notre Dame Retreat Director, revealed today that Notre Dame would open two week ends this summer to enable married couples in the Diocese to make weekend retreats together.

"The need for such retreats," Father Moran said, "has been proven by married couples themselves. Last year, over 10,000 married couples retreated for a weekend in less than 50 retreat houses in the country."

"Marriages are made in heaven," Father Moran quoted, "but the practical truth of the matter is," he added, "that marriages are lived here on earth. Marriages, launched by love's first enthusiasm, are all too soon yanked back to earth by the rough and raw reality of the world. A retreat like this prepares a couple to share their future plans and sorrows together."

The two weekends opened for the married couples' retreat will be: July 9, 10 and 11 and August 13, 14 and 15. Father Moran warned that only 30 couples in the diocese will be accepted for each weekend retreat. Reservations will be re-

ceived on a first come first served basis. All reservations should be made directly to the Retreat House, 244 Alexander St., Rochester by mail or telephone; BR 1-6676.

We still let nature make the beer.

Nature makes Utica Club Beer. And it's time credit was given where credit's due. Oh sure, we supervise and sample, taste and test Utica Club. But nature's the real star. Utica Club Beer is brewed from the harvest. Only nature's choice whole grains go into our beer... never syrups or extracts. Also, a little bit of rice is added to Utica Club. Rice gives it a unique lightness, without sacrificing a bit of its natural flavor. And Utica Club is aged for months, not just weeks. This extra aging lets nature do two wonderful things to our beer. It makes its own carbonation this way—natural bubbles, like the ones you find in champagne. Secondly, aging gives the beer that extra time it needs to mellow itself and smooth out the rough spots. Letting nature make the beer takes more time, of course. But one mugful will tell you it's worth every minute of it...and why we'd be fools not to take credit for it. We still let nature make the beer...because that's the way you like it.

We just take the credit.
