# FACT:

THERE ARE ONLY 17 PERFECT DAYS FOR CLOTHES DRYING IN THE ROCHESTER AREA

And 17 days a year aren't enough. Especially since "wash day" for the average family takes place at least three times a week. But with an automatic clothes dryer you get 365 perfect drying days.

Now's the time to install a clothes dryer, too, because cold, blustery autumn days and freezing winter weather are rapidly approaching. With a clothes dryer you can forget about watching the weather. You can "waltz through washday" any time convenient to you—day or night.

And a dryer saves you time and energy, too. Do you realize the average homemaker walks nearly 40 miles every year to hang over 5,000 pounds of heavy, wet wash and then take it down? It's 10 times easier and 28 times faster to shift your laundry from your washer to your dryer.

See your appliance dealer. He has the brand and model dryer to suit your needs and the price to fit your budget.
