A very significant figure!

In the twenty years we have been in the printing business our annual sales have multiplied to 20 times our first year's volume.

GROWTH IN SALES

This steady growth can be attributed to the constantly increasing customer acceptance of our services and the quality of our production. In our management, in our sales team and in our production supervision, we have built an organization that is both knowledgeable and experienced in the printing industry. The key personnel pictured here represent collectively 318 years in the printing and allied industries.

The accomplished craftsmen in our eight production departments have consistently been provided with the most advanced equipment and tools of their trades. Thus they are able to perform at peak efficiency and consequently improve our competitive position without sacrificing our rigid quality standards.

We have reinvested a substantial part of our earnings because we implicitly believe in our future growth as an integral part of the development of the Greater Rochester Area.
