## Pope Opens Archives On Life of Pius IX

### Editor Ousted, Too 'Childish'

London—(NC)—Father Herbert McCabe, O.P., editor of the English Dominican monthly, *New Blackfriars*, has been removed following appearance of an article expressing strong sympathy for Charles Davis, the English theologian who left the Church, and also maintaining that the Church is "corrupt."

The removal followed a stinging rebuke of the editor by Archbishop Igo "Cardinal," the apostolic delegate in Great Britain, who declared that Father McCabe showed "considerable immaturity, ignorance, lack of pastoral concern and a childish desire to be 'with it.'"

Vatican City—(RNS)—In a decision of wide interest to scholars, Pope Paul VI has opened for researchers the entire archives of the pontificate of Pope Pius IX (1846-1878). Hitherto papal documents have been accessible only up to the death of Pope Gregory XVI, his predecessor.

The pontificate of Pius IX, longest in history, embraced the crucial phases of the Italian "Risorgimento," the rise of "ultramontanism," the development of "parliamentary government" in Europe, dramatic church-state problems such as those reflected in the *Syllabus of Errors*, the revolutionary phase in Latin America and such such historic events as the First Vatican Council, the end of the papal states and the Roman revolution of 1849.
