Time and Travel

By LOUISE WILSON

Louise Wilson, Women's Editor of Station WHAM, is heard eleven times weekly: 9:10 and 9:25 a.m., Monday through Friday; 9:30 a.m. Saturday.

Two things, among others, matter much to me: TIME and TRAVEL. My busy, everyday life has to run like clockwork on a split second basis. This isn't just true of a broadcaster but of many a homemaker as well.

On vacation, travel is of prime importance. Happily the two are smartly combined in watches by Sheffield who have the right fashion for every corner of the globe and a whole collection of exciting watches to actually help the traveler.

WORLD TIMER, for instance, tells the time where you are and where you would like to be. A fantastic watch, it does all the mathematical magic for you. Then there's another model, a boon for travelers: DAY-DATE. This for the weary ones who lose track of the days as well as the date. An amazing watch, a wonderful aid to all busy people.

Still in the unbelievable category of watches, there are automatic Calendar watches and ALL SPORT. The latter to wear on land or seas as far down as 169 feet!

Besides the special type watches for special occasions and, purposes, there are fob watches, ring watches, pendant watches, bracelet watches and oh yes... wrist watches.

The bracelet type have a harem feeling. They're wide and handsome, heavy in appearance with textured bark finish in gold.

Pendants much in favor range from antique locket types of the past century to the big, bold, modern almost savage shapes. Fob watches salute the military with wide leather straps, big buckles and functional easy-to-read dials.

One of the most fabulous of the fob watches is LABCIE. It's richly ornate with a golden dial and dramatic numerals set on a slick and sleek circle of gleaming patent leather. Smart girls on the go hook LABCIE onto belts, skirts, or wear it pinned on the shoulder.

Ring watches are the center of a big popularity swing right now with such a variety available as to be almost bewildering. Pretend sapphires, simulated pearls and emeralds enhance the whole, disguising their practical purpose. Three of the rings are covers. The other two show their pretty faces.

Sheffield matches the man about town when he turns trav-

eler 'round the world. The famous WORLD TIMER mentioned above is illustrated as well. It tells accurate time and by merely turning the bezel you will see the time in most capitals of the world. All this and it's a waterproof CALENDAR WATCH, too.

The experienced traveler would never be without his BUTANE LIGHTER which gives double-service as a timepiece. Both are shock resistant, anti-magnetic and have unbreakable mainsprings. Both are excellent ideas to tuck away until you need a special gift for a special someone.

So whether your plans for Spring and Summer include a trip to the orient, a journey to the moon, a lazy relaxed time in your own "paradise" or a stopping expedition downtown to choose suitable gifts for graduates—one thing is certain: Sheffield has a fashion for every hour of your day—and for every activity. A closing pleasant thought: prices range from 12.50 to 25.00.

There are baths... and there are baths

... and then there are good, hot, relaxing baths. You know, the kind you like to take after a hard day's work. But can your present water heater give you all the hot water that's needed to fill the tub—just the way you like it? Chances are the "old clunker" will give out about half way through.

There's no need to spoil this old-fashioned luxury—it's one of the few we have left you know. Simply replace your "old clunker" with a new A. O. Smith automatic gas water heater. A. O. Smith is not new to the water heater industry. In fact, they were making water heaters long before people discovered that Saturday night was not the only time to take a bath.

If you've decided to "throw in the towel" on your old water heater—call us. We'll deliver and install a new A. O. Smith quality glass lined automatic gas water heater. Then you can sit back in your tub of luxury knowing perfectly well you have the finest water heater available.

10 Yr. Guarantee

If within the 10-year period your tank leaks or you have rusty water due to a defect in the glass lining, you will receive a new replacement free. Effective October 1, 1966, installation will also be free within 5 years of purchase.
