At DePaul Clinic

Guidance With A Bit of Brogue

By MONICA REEVES

The DePaul Clinic, the mental health service for Catholic school students in Monroe County, took on an international air this summer with the coming of Sister Teresa Coughlan.

Sister Teresa is a member of the Sisters of Our Lady of Charity of Dublin, Ireland.

The DePaul staff was already cosmopolitan with the presence of Mrs. Patricia Kao of Formosa and India's Dr. Daas, both of whom have been working at the clinic this summer.

Since July 5th, Sister Teresa has been adding her delightful, lilting Irish brogue to the industrious sounds of the clinic's offices at 50 Chestnut St. Here she interviews the parents of children with school problems, be they along the lines of discipline or learning. This work is part of Sister Teresa's field experience as she works towards her Bachelor of Social Sciences degree at the University College of Dublin.

After her eight weeks in the United States, she will return home to complete her undergraduate requirements and then do post-graduate work in psychiatric social work. Eventually, Sister Teresa hopes to be working with one of her order's centers in Dublin.

Sister Teresa, a native of Dublin, has been in religious life for 22 years. Before entering, she worked in a government office in Dublin. Since becoming

Sister Teresa

a nun, Sister Teresa has taught in the elementary grades and worked with social agencies.

Sister Teresa is not the only one in the Coughlan family with a penchant for far-away spots on the globe. She has a sister stationed in New Zealand and

Perhaps one of the biggest thrills for Sister Teresa was getting to meet and chat with Bishop Sheen recently. Since his books are bestsellers in Ireland, as they are in the States, she was eager to meet their author in person. Bishop Sheen closed their conversation with a plea that she see that some of that "Good Irish faith" be sent America's way.

Although Rochester generally has a reputation as being a cold, inhospitable city, Sister Teresa claims to have found nothing but friendliness here. She cited the warm reception given her by the Sisters of her order who operate Holy Angels Home on Winton Rd. and their continuing kindness to her since her arrival.

And the informal, give-and-take sharing that characterizes the DePaul Clinic has helped Sister Teresa to discount the idea of Rochester being unfriendly.

The feeling of friendship is a mutual one, according to Gerald Pashby, director of social work at DePaul Clinic.

"It has been a delightful exchange in social work concepts and has brought us up-to-date on European advances in the field. Sister Teresa is a charming person who brought with her a wit that has enlivened the clinic, together with the fine work she has done here. She relates to people easily and is the ideal person for social work of many sorts."
