# Suburbia?

What do you do when you live on a very small island with over three and a half million people—say Hong Kong? Move to the suburbs? But what if the suburb is Red China? The only answer is this—and the hundreds of thousands who crowd these house boats are lucky! Over half the people of the world are homeless—and most live in Asia.

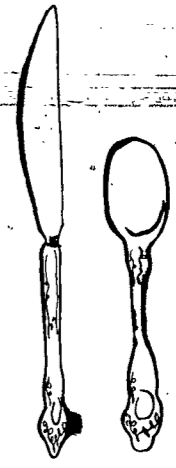

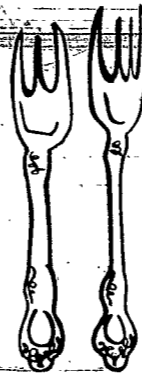

When we hear that three-fourths of the human race lives in poverty or below the subsistence level, these are the people we are talking about. Do we know what it feels like to subsist, to know no other feeling but that of hunger? It is impossible, or we could never spend over 100 billion dollars annually on armaments while 10,000 die each day from undernourishment.

Take a good look at your everyday surroundings. You are a part of the 20% of the world's population that has access to 80% of the world's food. That means that the other 80% of the world must be content with the remaining 20%. Of course you can read this and say "So?". But, "You cannot say to someone who is hungry: come tomorrow... We must act today because tomorrow may be too late" (Pope Paul VI). "Feed the man dying of hunger... if you have not fed him, you have killed him." (Vatican II). Dear Monsignor O'Meara, I am attaching my gift of \$\_\_\_\_\_ to help right the imbalance in our world. Please use it so that a missionary can feed the starving. name: \_\_\_\_\_ address: \_\_\_\_\_
