You won't be snowed under by big winter heating bills if you sign up this month for RG&E's 10-Month BUDGET BILLING PLAN

More than half the fuel required to heat your home for a year is used in December, January and February. Obviously, heating bills will be higher following these peak periods and lower in Fall and Spring when you use less fuel.

If you heat with gas or electricity, and it would be more convenient for you to spread those payments equally over ten months, you can, simply by returning the coupon below. Your budget payments would then start with your September bill.

It costs you no more, or no less, over the entire year to be billed on the Budget Plan than it would to be billed each month for the fuel you actually used.

RG&E ROCHESTER GAS AND ELECTRIC 89 EAST AVENUE • 546-2700
