Future

The Courier-Journal believes in the necessity of the Catholic school system, and there is no question that the future values of our schools and that the Catholic children of attend the public schools. Monsignor Roche's duty to the diocese frequently about of our schools' future.

By MSGR. WILLIAM M. Diocesan Superintendent

Very little has been done to make the needs of Catholic specifically families. The average Catholic parent action: if we are being p the field, we should be increased aid for Catholic if parents lack knowledge of the problems faced by Catholic, they should be out tions.

Why have so few of the doing these things? The relatively simple: they h tified with the problems education. They mental those problems with so "They are not our pro never have been. The p theirs."

Who are they? And h happen to come upon the The they are the past principals, the hierarchy teachers and the admints we are the parents wh children in, who object to ments, who dislike mar ures, who believe that th are treated unfairly, and ly object to pastors and ing for money to support the system of schools.

How did it get this way been fault on both sides traditionally spoken of my parish, my parochial classroom while we have their policies in running

Whenever you have t the they's the battle lines drawn. The sooner we pettiness, the sooner we these problems and ope of our schools to more dren. The schools we an are our schools. The child in mind are our childre worthy of us to sit mot these children are irrev ed. So first, let us discov problem is; second, let thing about it.

It is a basic philosophy of Christianity, that educ to the parent. Although stians, both clerical and service to this proposition act as though they believe tedly, the family cannot adequate education for meet the problems of ind industrial society. But parents who expect the same all of their respon

Let's focus more sha problems. Catholic schoo in existence in this coun than 100 years now. That to be long enough to give experience in education stand its purposes and its it should give a certain b spective and it should be of time for a restatement the methods, and the go lic education.

Our 100 years of ex us, first of all, that Cation is eminently practi we can add that it is m when combined with th our beloved democracy. that Catholic education h a cause and an effect flowering of the Church. As a matter of fact, it cause much more than the dramatic evolution o from a struggling miss in 1850, to its security spect in 1950.

On hundred years is o time to trace the prog Catholic school — to se from the isolated, on of the frontier to the sophisticated institution comprises today.

Secondly, history poi Catholic education bene as a whole. Educati ter of self-preservation racy. Many signs tell ir servers today that the t at hand when the Ame will recognize in full th justice for the public se vate education.

This recognition has al The Elementary and Sec tion Act of 1965 gara clusion of students in pr in the additional prog drawn up for those h educational needs. It g library books, textbooks, visual materials, and it future by giving to pr administrators the man operate in the planning tions in education.

As we implement the and Secondary Education our eyes are raised from ate tasks before us, as these are, and we fo sider the prospects for e 20, even 30 years from

It is critically urgen before, that our educati be geared to satisfy the dren growing up in an a years means the differ the first experimental s the exploration of the m
