Do you object to earning money for your organization and for yourself at the same time? If it involves a great deal of time and the cash outlay, an element of chance, no doubt

Well the Courier has a plan for you which represents the most painless way yet devised for you to earn this kind of money. It's called MONEY LABELS. Merely by saving those box tops, labels and other "proofs of purchase" which you'd ordinarily toss in the waste basket, you can come out a winner. In this plan, there's only one way you can lose and that's by not joining. Remember to save those valuable labels for cash and

None of you forget to save trading stamps. Why? Because these mean goods which are coming to you. MONEY LABEL stamps mean either goods or cash. Here's a big advantage which even trading stamps can't offer.

In addition to goods or cash—whichever you prefer—you'll receive another bonus. This is the MONEY LABELS Magazine which will be sent to you four times a year. Printed by the Curtis Publishing Co. and edited by a woman who formerly was women's editor for the Saturday Evening Post, it will contain a wealth of information—household tips, recipes, items of interest to children etc. Here too each participant will find the list of products for the particular period. The number of MONEY LABEL stamps given for the proof of purchase from each product will also be noted. All you will need to do is detach this sheet (the center fold) from the magazine, mark on it the number you've saved and include it in your collection of labels. Nothing could be simpler.

We know you'll enjoy this magazine and will look forward to its coming into your home. Besides, you'll have an everready guide to MONEY LABEL products. Placed conveniently in your kitchen, it will be a reminder of what to buy and of what proof of purchase to save. Can you afford to throw money in the waste basket? No chance of that with a handy list at

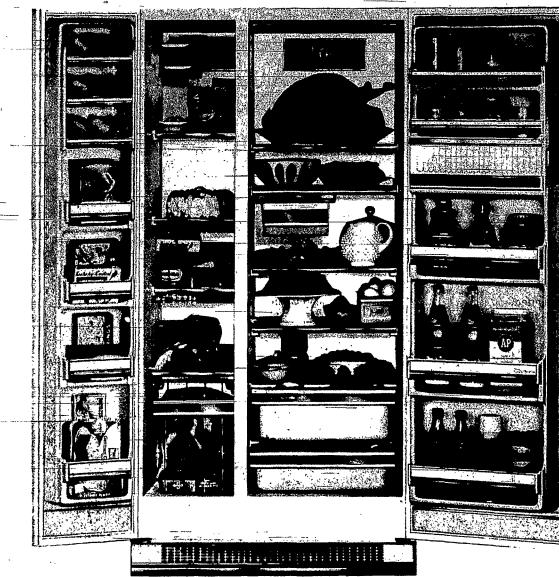

So why not investigate the possibilities of MONEY LABELS today? With everything to gain and absolutely nothing to lose, you'd be foolish not to join.
