French Bishops Warn 'Rebels'

Paris — (RNS) — France's bishops have issued a stern warning to "rebel priests" who met earlier at Dijon, accusing them of disloyalty to the Church.

The Permanent Council of the Episcopate recalled in a statement that "a priest cannot consider himself to be loyal to the Church and cannot loyally accomplish his ministerial duties when he is no longer in communion with the bishops on the essential points of the exercise of his mission and in

particular, when he chooses a way of life that includes marriage."

It was revealed that 30 of the priests attending the third national assembly of the "Exchange and Dialogue" group were married, while another 18 admitted they were living as "couples." About 100 members of the 800-member movement attended the meeting that declared virtual war against the alleged complicity of the Church with the "capitalist and imperialist system."

Damages Awarded

New York — (NC) — After a five-week trial, a Brooklyn jury awarded a woman \$251,000 in damages against a drug company.

The verdict was given in favor of Mrs. Robert Meinert, 29. She said she took Enovid birth control pills produced by G. D. Searle and Co., in 1961 and 1962 and charged that the company gave no warning of adverse side effects of the pill. Mrs. Meinert said she developed mesentery thrombosis, underwent surgery and had part of her intestines removed. She instituted the suit in 1964.
